# SPECIAL INTEREST

## MAKING DREAMS COME TRUE

Weddings have always been my passion, and I was hooked when a friend asked me to design her wedding stationary. My clients are from around the world, ranging from Italy and Istanbul to Chile, Canada and the US. Each creation is a piece of custom art designed especially for the bride and groom.

## KRAFTY LIKE A FOX

Not really, but I do love to create, from creating cards, to 3D packaging, to books and mini albums. My passion for anything creative flows from crafting, sewing, cooking and painting.

## BORN TO TRAVEL

As far back as I can remember I have always wanted to travel. I love the history of places and enjoy the culture each has to offer. I began to travel in my early twenties and have never looked back. Do I have a bucket list? You bet, my next adventure Japan in the Spring of 2018.

## PHOTOGRAPHY MY SOUL

My first camera was an instamatic and I would shoot rolls and pretend that I was a fashion photographer. I enjoy taking pictures when I travel but product shots, environmental / stock and fashion brings out the creative in me. There is no better feeling then capturing the "moment" ... the emotion, the lighting, a smile, a tear, something totally unexpected ...

## WHAT'S COOKING?

I love to learn new things especially when it comes to cooking. Mix that with photography as well and I am fulfilled. Yes, I do take pictures of my creations and I love to share! My trip to Italy allowed me to learn how to make fresh pasta, how wines are produced and discover how wonderful it is to live in moment. Mix food and photography and you have the perfect combination.
